* SPEAK to your local Landcare Group or NRM body for funding assistance options. We thank them for their support. Multiple accommodation options are available in Mataranka or in Katherine, only 1 hour drive north.

Join us for a day with Allan Savory, founder of Holistic Management (www.savoryinstitute.com), on how we can heal landscapes, empower communities and create resilience. Fellow participants will include key decision makers and influencers of policy and future direction across North Australia - from politicians to grassroots land managers. Miners, scientists, shire councils, farmers and cattlemen – anyone interested in the future prosperity of the North – is urged to attend.

At age 76 Allan will not likely be returning to Australia too often. We are extremely fortunate to be able to secure his presence in north Australia (let alone Mataranka!) His full Australian itinerary (Warwick, Lismore, Orange, Dubbo, Brisbane, Sydney and Melbourne) is available on Facebook, <https://www.facebook.com/AllanSavoryInAustralia>

Allan’s recent TED presentation: “How to green the world's deserts and reverse climate change” has already attracted well over 1,200,000 viewings on the TED website alone.

(Link to presentation: <http://on.ted.com/Savory> - should you have problems with buffering, view on small screen.)

Allan’s message is most relevant to the prosperity of Northern Australia. Here is our chance to blend local knowledge with proven innovation.
